- IntelliJ IDEA, VSCode
- Postman, API, RestAssured
- Jira, TestRail, Trello

Soft Skills

- Attention to details
- Communication
- Problem-solving
- Teamwork

Education

2000 – 2006
Specialist in rehabilitation
Open International University of Human Development "Ukraine"

Language

English - intermediate

Ukrainian - native

QA Engineer
Taras Shevchenko

I am a self-motivated and reliable QA engineer specializing in manual and automated testing with expertise in Java and a background in system administration. My experience encompasses meticulous test case design, bug tracking, creating automation scripts, and CI/CD processes. With a keen eye for detail and an analytical mindset, I ensure the delivery of high-quality products and collaborate effectively with teams to resolve issues promptly.

Projects

FriendRate	[Manual tests, Selenium, Java, Rest Assured]
Doxy.me	[Beta testing, Functional, Accessibility Testing]
Redroverschool	[Docker, Selenium, Java, Maven, TestNG]
Saucedemo	[Playwright, Java, Allure, GitHub Action]
Utest.com	[Manual, Mobile, Cross-browser testing]

Work Experience

QA Engineer in Junfolio
12.2023 - 07.2024

- Designed Test Plan and checklists.
- Ensured software function compliance.
- Evaluated performance, security, and usability.
- Ensured cross-platform compatibility.
- Managed defects using tracking tools.
- Designed and executed manual and automated test cases using Selenium, Java, Allure, and RestAssured.
- Collaborated effectively with developers using SCRUM methodology to identify and resolve bugs.

QA Engineer in StarWind Software
12.2021 - 05.2022

- Performed various types of manual testing: including functional, regression, system, and performance testing (load and stress testing).
- Created and administered fault-tolerant VMware vSphere Clusters.
- Created and maintained test documentation, checklists, and reports.
- Administered network storage.
- Analyzed results to identify problems and errors.
- Worked with virtualization technology, including VMware ESXi, Hyper-V, StarWind HyperConverged Appliance, and Veeam Backup & Replication.

System administrator Department of the Doctor Sam clinic
01.03.2017 – 01.02.2018
